

Our Dynamic Earth Learning Event for Carers Wednesday 21st August 2019 10.30am to 2.30pm

About the Event

10.30am – Arrival, Teas and Coffees

11.00am- 12.00pm – Workshop 1- The **ATLAS** project

strives to improve our understanding of complex deep-sea ecosystems, including those that are new to science. Researchers are looking to predict future changes to these ecosystems and species in the face of climate change. Dynamic Earth, together with researchers, from Universities have produced an educational programme highlighting some of the most relevant and dynamic discoveries

12.00pm- Lunch is served

1.00pm–2.00pm - Workshop 2- **Digital Science**

Together we will examine how digital technology can be used in environmental science, experimenting with basic programming to create a wildlife identification device. Along the way we will address the principles of code and test your skills

2.00pm – 2.30pm- feedback

2.30pm- Finish/ Optional Tour of ODE Galleries

Dynamic Earth and Care for Carers would like to celebrate their ongoing partnership of more than 6 years. Throughout the day moments will be captured in photographs and film in order to track the discoveries you make, witness your moments of inspiration and capture the social aspect of the day.

To book a place please phone, email or return the information below to Dipa Ward at **Care for Carers, Room 4-25. St Margaret's House, 151 London Road, Edinburgh EH7 6AE**
